

OK - polecane przez organizatora festiwalu

For all excursions in Nei Pori and Neos Marmaras i will arrange guide to go with you, in English. If you need guide in Polish language this must be paid additionally (and there are not so many of them for polish language, so we must book guide on time). I must speak about the rates (but i believe they are not cheap), i did not hire them before, we always made guidance in english with our staff. Of course they know the routes and can give you basic infos, but they are not professional tourist guides.

I hope that i managed to give you enough infos so that you can organize.

I am sure that you will have great time, no matter if you make excursions or not, beaches are beautiful and sea so this will be enough to satisfied you as well.
